

**AUTO LENDING** Quick tips

1. Once your application status is 'Approved - Contracts Ready', you can complete the Required Actions to send contracts.
2. Introducers complete the 'Direct debit information' and 'Disbursement' confirmation.
3. Signing is completed via Docusign, with wet signature as an option for customers.

**Direct debit information**

- > Before you can issue the contracts, confirm the direct debit information. To do this, click on 'Prepare Contracts' at the top right-hand side of the portal.

Enter the name of the bank, the name of the account holder and the bank account number.

Check that these details are accurate, along with the settlement date and first repayment date and click 'Submit'.

That completes this action, and you can then move on to the 'Disbursement table'.

Confirm disbursements

- > Click 'View' to review each disbursement line.

The disbursement section is broken into three sections:

### Fees and commission

Fees and commission disbursement records are system-generated. Please review and confirm each line item.

### Payout remittance records

Payout and remittance disbursement records are system-generated. Please review and confirm each line item. If the payout needs to go to another party, please clear the relevant amounts and create manual disbursements.

### Third party and manual records

If you have any additional third-party or manual disbursement records for this application, you can create them in this section.

If you are a dealership that doesn't require funds to be paid to another account, click the 'Confirm disbursements' button at the bottom. This will process and confirm all disbursement lines.

- > Once all disbursement lines are complete, click 'Send contracts for signing'.

## Generate contracts

- > Once you select 'Send contracts for signing', the application status will enter the 'Contract signing in progress' stage.

The contracts will first be sent to you for completion via DocuSign, before they are sent to the customer.

If the customer prefers to sign their contract using a wet signature, they can select 'Download' to print, sign and upload the contract directly to DocuSign. This ensures the contract and automated process will continue seamlessly.

Need to make changes? Click 'Void contract' to return to the 'Contract ready' stage. You can then make any updates required.
